

**METHOD, WIRELESS HANDHELD ELECTRONIC DEVICE AND SYSTEM
OF REMOTELY CONTROLLING E-MAIL SETTINGS FROM THE DEVICE**

ABSTRACT OF THE DISCLOSURE

5 A system includes a wireless handheld electronic device having a plurality of e-mail settings associated therewith. A plurality of servers include an e-mail server and a wireless enterprise server having a database maintaining at least one of the e-mail settings. The wireless enterprise server is adapted to wirelessly communicate with the wireless handheld electronic device. The wireless handheld
10 electronic device is adapted to remotely control at least one of the e-mail settings at the wireless enterprise server through wireless communication between the wireless enterprise server and the wireless handheld electronic device.
