(54) Title: MASSAGE VIBRATOR FOR THE RELIEF OF ACHES AND PAIN

(57) Abstract: This invention concerns a massage vibrator for the relief of various aches and pains in the head, face and body by means of stimulating energy channels and parts of the body surface. It has a central body (11), enclosing a vibration generator (16), at least one pair of springy arms (14) on one part of the central body and an active terminal head (15) at the end of each of these said arms. The terminal heads of each pair of arms are applied to the area to be stimulated and the vibrations produced by the vibrator are transmitted, through the springy arms, to the terminal heads (15) in order to exercise a massaging vibratory action at the point desired.
