(54) Title: PROCESS FOR REDUCING THE LEVEL OF NO_x IN WASTE GAS STREAMS USING SODIUM CHLORITE

(57) Abstract: A process for reducing NO_x concentrations in waste gas streams. More particularly, the present invention relates to contacting a NO_x-containing waste gas stream with an effective amount of sodium chlorite under conditions such that at least a fraction of the oxidizable NO_x species present in the waste gas stream is oxidized to higher nitrogen oxides.
