

ABSTRACT

VEHICLE BODY ASSEMBLY AND VEHICLE

Provided are a vehicle body assembly (100) and a vehicle. The vehicle body assembly
5 (100) includes a plurality of longitudinal beams (82), a first connection section (85), a plurality
of sill beams (86), a front bulkhead cross beam (81), a second connection section (84), a middle
channel (91), and a seat mounting beam (1). The first connection section (85) is connected
between one of the plurality of longitudinal beams (82) and a corresponding one of the plurality
of sill beams (86). The front bulkhead cross beam (81) is connected to the plurality of
10 longitudinal beams (82). The seat mounting beam (1) is connected to the plurality of sill beams
(86). The middle channel (91) is connected between the front bulkhead cross beam (81) and the
seat mounting beam (1). The second connection section (84) is connected between the middle
channel (91) and a corresponding one of first connection sections (85).
