(54) Title: INTUMESCENT COMPOSITION

(57) Abstract: The present invention provides a novel intumescent coating composition having excellent intumescent-properties comprising an organic polymer, a spumific and a specific additive, the additive comprising a combination of two different sources of metal/metalloid atoms. Also provided are substrates coated with the intumescent coating composition, a method of preparing an intumescent coating, and a method of protecting structures from heat/fire.
