

ABSTRACT OF THE DISCLOSURE
METHOD AND DEVICE FOR REQUESTING SYSTEM INFORMATION

A method by which a terminal requests system information in a wireless communication system and a device supporting same are provided. The method can include: a step for transmitting, to a base station, a random access preamble for requesting system information; a step for receiving, from the base station, a random access response that only includes a random access preamble identifier (RAPID) corresponding to the transmitted random access preamble; and a step for deeming a random access procedure completed.
