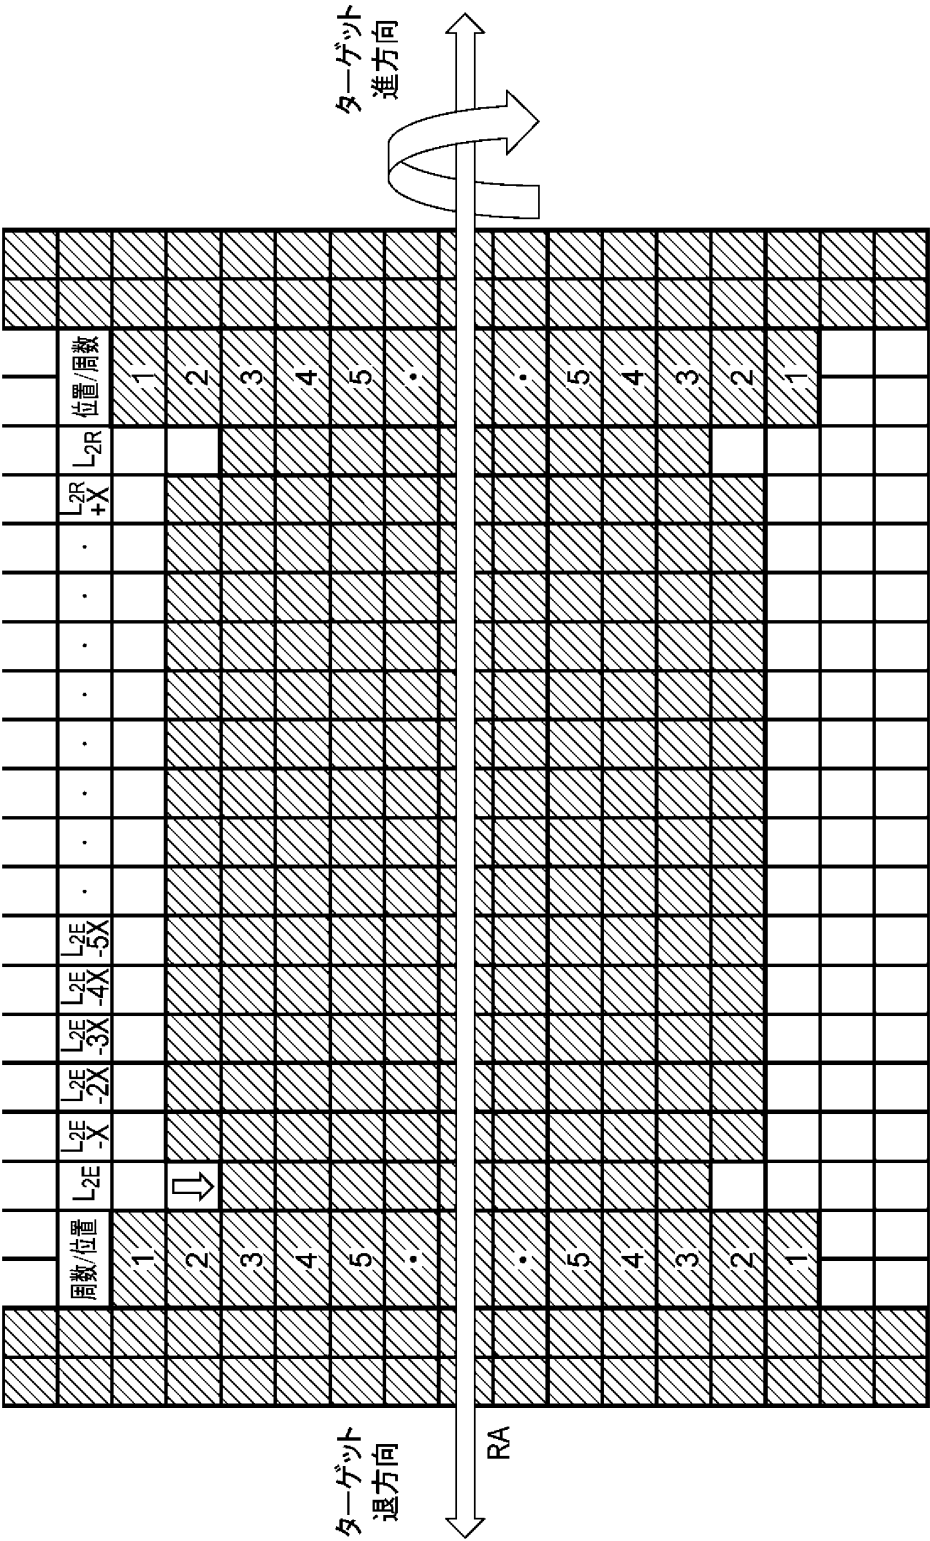

Figure 1 is a schematic diagram of a target area, divided into two regions by a vertical line labeled "RA".

The left region is labeled "第2ストライク範囲" (2nd Strike Range). It contains a grid of cells. The top row of cells is labeled "周数/位置" (Round/Position) and "L2E". The bottom row of cells is labeled "L2E" and "位置/周数" (Position/Round). The cells are numbered 1 through 5, indicating a sequence of rounds or positions. The cells are shaded with diagonal lines.

The right region is labeled "第1ストライク範囲" (1st Strike Range). It contains a grid of cells. The top row of cells is labeled "位置/周数" (Position/Round) and "L2R". The bottom row of cells is labeled "L2R" and "位置/周数". The cells are numbered 1 through 5, indicating a sequence of rounds or positions. The cells are shaded with diagonal lines.

Arrows indicate the "ターゲット進方向" (Target Advance Direction) pointing to the right and the "ターゲット退方向" (Target Retreat Direction) pointing to the left.

[図13A]

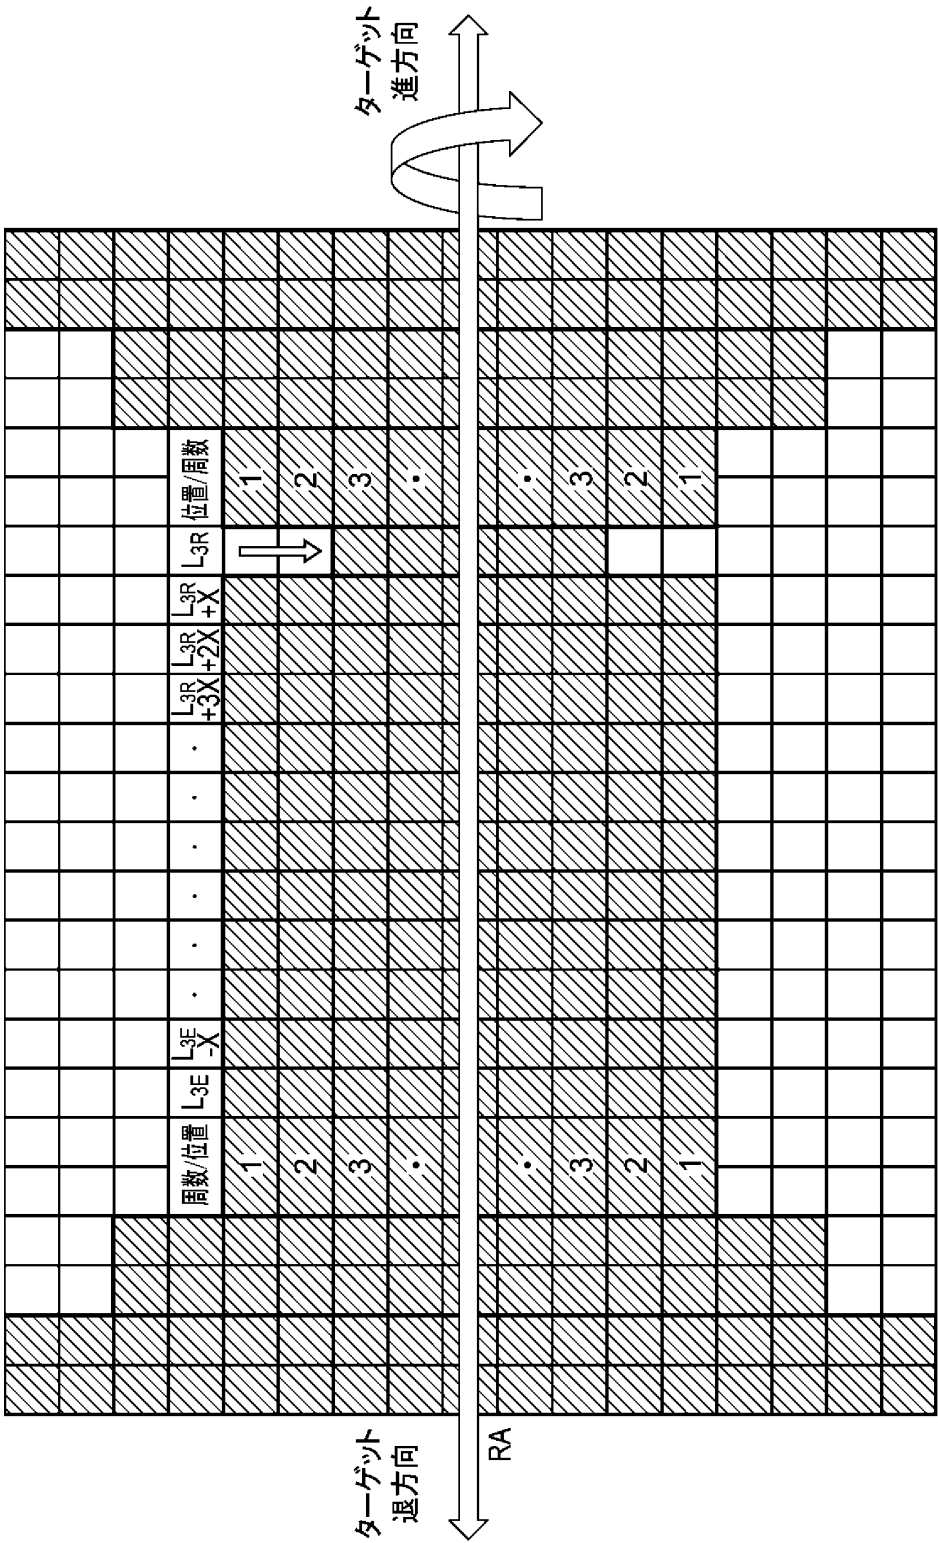

Figure 1 is a diagram illustrating a grid-based system. A central vertical axis is labeled "RA". The grid is divided into two main sections by the RA axis. The left section is labeled "ターゲット退方向" (Target Retreat Direction) and the right section is labeled "ターゲット進方向" (Target Advance Direction). The grid contains various numerical values and symbols, including "L3E", "L3R", and "L3R+2X+X". A large arrow points from the left towards the right, indicating the direction of movement.
