

ABSTRACT

ELECTRIC BLOWER AND VACUUM CLEANER

To provide an electric blower capable of lengthening a life in a simple configuration, and a vacuum cleaner including the electric blower.

An electric blower 1 includes a fan 2, and a motor 11 configured to rotate the fan 2. The motor 11 has a shaft 27, a magnet part 30 arranged to the shaft 27, a spindle 26, and a bearing 32. The spindle 26 is rotated together with the fan 2 arranged to the shaft 27. The bearing 32 rotatably holds the shaft 27. The suction side of the fan 2 is arranged in the side of the magnet part 30. The bearing 32 is arranged in the opposite side of the magnet part 30 with respect to the fan 2.
