(54) **Title:** CHAIR COVER

FIG. 1

(57) **Abstract:** Various embodiments relates to a chair cover for covering at least a part of a chair, the chair cover comprising: at least one first panel formed of or from a first fabric, and configured to cover at least one middle section having a centreline of the at least the part of the chair; and a plurality of second panels formed of or from a second fabric different from the first fabric and joined together with the at least one first panel, wherein the plurality of second panels are configured to cover edges of the at least the part of the chair surrounding the at least one middle section, and wherein the plurality of second panels are configured to be stretched more than the at least one first panel such that the chair cover fits snugly around the edges of the at least the part of the chair.
