

WASHING MACHINE

ABSTRACT

5 A washing machine includes a washing machine body, a water tub
supported in an inside of the washing machine body and having a bottom with
a drain port, and a heater unit disposed below the water tub and
communicating with an inner bottom of the water tub. Further, the heater
unit has heater container (37) that houses heater (38) for heating washing
10 water inside and a plurality of water passages communicating the inner
bottom of the water tub and heater container (37). The plurality of water
passages is provided at positions where temperatures of the washing water are
different in a state in which a power source of heater (38) is turned on.
