# CLAIMS

1. Use of a fixed combination of adapalene and benzoyl peroxide in the preparation of a medicament for the treatment and/or prevention of acne atrophic scars.

2. Use according to Claim 1, characterized in that the medicament is in the form of a composition suitable for topical application.

3. Use according to any one of Claims 1 or 2, characterized in that the medicament is in the form of a gel, an emulsion, or a lotion.

4. Use according to Claim 3, characterized in that the medicament is in the form of an aqueous gel.

5. Use according to any one of Claims 1 to 4, characterized in that the medicament comprises from 0.01% to 2%, preferably from 0.05% to 0.5% and more preferably from 0.1% to 0.3% of adapalene, by weight with regard to the total weight of the composition.

6. Use according to any one of Claims 1 to 5, characterized in that the medicament comprises from 0.1% to 5%, preferably from 0.5% to 5%, more preferably from 2% to 5%, and most preferably 2.5% of benzoyl peroxide, by weight with regard to the total weight of the composition.

7. Use according to any one of Claims 1 to 6, characterized in that the medicament is in the form of an aqueous gel having the following composition, as percentage by weight with respect to the total weight of the composition:

   - adapalene: from 0.1% to 0.3%,
   - benzoyl peroxide: from 2.5% to 5%,
   - at least one gelling agent: from 0.001% to 15% and more preferentially from 0.15% to 5%,
   - at least one chelating agent: from 0.01% to 1.5%,
   - at least one preservative agent: from 0.01% to 3%,
   - at least one wetting agent: from 0.1% to 10%, and
   - at least one pH adjuster.
