(54) Title: METHOD AND APPARATUS FOR DISTRIBUTION OF COMMUNICATION CHANNELS TO A DEVICE FOR RECEPTION OF ELECTRONIC DOCUMENTS

(57) Abstract

The present invention relates to a method and a device for distributing communication channels (18) with a link to a form. The invention is intended, among other things, for trading with shares and other financial means. One objective of the invention is, based on knowledge of the holdings of financial means by clients and their interest in other companies, together with a flow of share price information, news and analyses, to distribute relevant information to a group of subscribers (clients) via WAP telephones (10) or other type of similar wireless network and at the same time allow an interactive reply from the client in the form of an order transaction.
