A B S T R A C T

DISPOSABLE ABSORBENT SANITARY ARTICLE

A disposable absorbent sanitary article includes sheets 26 to form a pair of flaps 10A and a pair of flaps 20 and the sheets 26 are folded along flap fold lines 17, 39 back onto themselves, respectively, to form free edge portions 40A, 40B of the respective pairs of flaps 10A, 20. Elastic members 34, 36 secured under tension to the sheets 26 inside the respective free edge portions 40A, 40B are spaced from the fold lines 17, 39 at least by 1 mm, respectively.

Refer to Fig. 4.
