(54) Title: CARTON

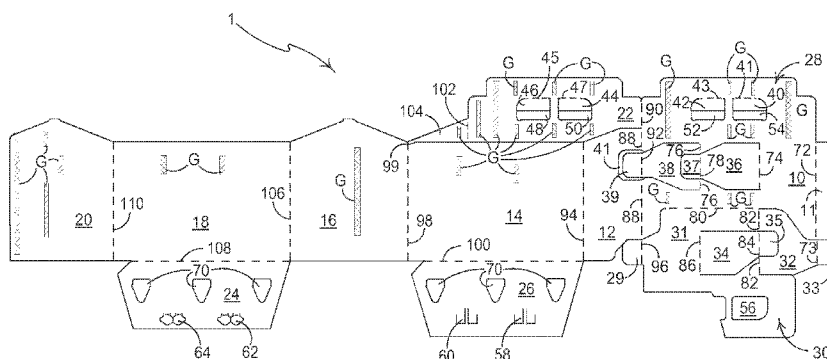

FIGURE 1

(57) Abstract: A carton (3) for holding articles, which carton comprises walls (14, 16, 18, 20) that define an interior volume for accepting the articles, the carton (3) further comprising first (10) and second (31) partition panels for forming a partition to divide that interior volume, from which partition extends a handle structure, which handle structure is formed from a first handle element (28) provided by a portion of the first partition panel (10), and a second handle element (22) hinged to the first handle element (28), the two partition panels (10, 31) being hinged to one another, a third handle element (30) for forming the handle structure being provided by a portion of the second partition panel (31).
