ABSTRACT

4-AMINO-3-(IMIDAZOLYL)-PYRAZOLO[3,4-D]PYRIMIDINES

Compounds are provided that act as potent antagonists of the CCR1 receptor, and have *in vivo* anti-inflammatory activity. The compounds are 4-amino-3-imidazoyl-pyrazolo[3,4-d]pyrimidine derivatives and are useful in pharmaceutical compositions, methods for the treatment of CCR1-mediated disease, and as controls in assays for the identification of competitive CCR1 antagonists.
