(54) Title: FORMULATIONS FOR THE PREVENTION OR THE TREATMENT OF DISEASES AFFECTING MUCOSAE OR SKIN, OR FOR PREGNANCY PREVENTION, AND AN APPLICATOR FOR THE DELIVERY OF TOPICAL FORMULATIONS INTO MUCOSAL CAVITIES

(57) Abstract

This invention relates to formulations for the prevention of infection and/or abnormal conditions of mucosae and/or skin caused by any pathogen and/or any disease, and more particularly for the prevention of sexually transmitted infections specially HIV and HSV. This invention also relates to formulations for the treatment of infection and/or abnormal conditions of skin and/or mucosae and more particularly for the treatment of herpetic lesions. The formulations could be used as a prophylactic agent to prevent accidental infection of health care workers. The formulations could be used for the healing and/or treatment of burn wounds and prevention of further infection. This invention also relates to the development of a unique vaginal/ano-rectal applicator for the uniform delivery of any topical formulations to treat and/or prevent any infection and/or abnormal conditions of mucosa cavity caused by any pathogen and/or disease.
