[Fig. 6]

This diagram shows a top-down view of a circular mechanical assembly. It features a central circular hub (38) surrounded by a ring of radial spokes (39). The outermost ring is labeled 40. Various components are labeled with reference numerals: 34 points to a small protrusion on the left; 36 points to a central hub component; 37 points to a small circular feature on the left; 41 points to a small circular feature on the right; 42 points to a small rectangular feature on the right; 43 points to a small circular feature on the right; 44 points to a small circular feature on the right; 45 points to a small rectangular feature on the right; 46 points to a small circular feature on the right; 47 points to a small circular feature on the right; 48 points to a small circular feature on the right; 49 points to a small circular feature on the right; 50 points to a small circular feature on the right; 51 points to a small circular feature on the right; 52 points to a small circular feature on the right; 53 points to a small circular feature on the right; 54 points to a small circular feature on the right; 55 points to a small circular feature on the right; 56 points to a small circular feature on the right; 57 points to a small circular feature on the right; 58 points to a small circular feature on the right; 59 points to a small circular feature on the right; 60 points to a small circular feature on the right; 61 points to a small circular feature on the right; 62 points to a small circular feature on the right; 63 points to a small circular feature on the right; 64 points to a small circular feature on the right; 65 points to a small circular feature on the right; 66 points to a small circular feature on the right; 67 points to a small circular feature on the right; 68 points to a small circular feature on the right; 69 points to a small circular feature on the right; 70 points to a small circular feature on the right; 71 points to a small circular feature on the right; 72 points to a small circular feature on the right; 73 points to a small circular feature on the right; 74 points to a small circular feature on the right; 75 points to a small circular feature on the right; 76 points to a small circular feature on the right; 77 points to a small circular feature on the right; 78 points to a small circular feature on the right; 79 points to a small circular feature on the right; 80 points to a small circular feature on the right; 81 points to a small circular feature on the right; 82 points to a small circular feature on the right; 83 points to a small circular feature on the right; 84 points to a small circular feature on the right; 85 points to a small circular feature on the right; 86 points to a small circular feature on the right; 87 points to a small circular feature on the right; 88 points to a small circular feature on the right; 89 points to a small circular feature on the right; 90 points to a small circular feature on the right; 91 points to a small circular feature on the right; 92 points to a small circular feature on the right; 93 points to a small circular feature on the right; 94 points to a small circular feature on the right; 95 points to a small circular feature on the right; 96 points to a small circular feature on the right; 97 points to a small circular feature on the right; 98 points to a small circular feature on the right; 99 points to a small circular feature on the right; 100 points to a small circular feature on the right.
