

ABSTRACT

The present disclosure provides a multimedia work display method, apparatus and device, and a storage medium. The method comprises : first displaying, on a target page corresponding to a first user, multimedia works corresponding to the first user of the multimedia works; and then in response to a trigger operation for a preset ranking control on the target page of the multimedia works, updating, according to a descending order arrangement mode of the number of user interactions of the multimedia works, a display sequence of the multimedia works corresponding to the first user of the multimedia works on the target page of the multimedia works. Hence, in the embodiments of the present disclosure, by means of the trigger operation for the preset ranking control on the target page, the multimedia works can be displayed according to the descending order arrangement mode of the number of user interactions, so that the display form of the multimedia works is enriched and the user experience is improved.
