

1 ABSTRACT OF THE DISCLOSURE

2

3 CABLE ASSEMBLY WITH ANCHOR

4

5 A cable assembly comprises a cable having a main body, strands, a tail and a
6 first cable end, an anchor, and a sleeve having a bore, a first end and a second end.
7 The first end is positioned generally adjacent the anchor, the second end is positioned
8 remote from the anchor, and the cable end is positioned in the bore. A cured adhesive
9 is positioned in the bore, binding the sleeve to the cable, along with a rope insert which
10 is positioned at least partially in the bore, wherein the cured adhesive holds the at least
11 one rope insert in a fixed position with respect to the sleeve.
