ABSTRACT

An electronic ticket management apparatus includes an issued ticket management table configured to accumulate electronic ticket information including an upper limit amount of use, an authorized user, and a payer, a transfer management unit configured to acquire a transfer request from the payer and change the authorized user of the electronic ticket information accumulated in the issued ticket management table to a person designated in the transfer request, a transaction management unit configured to restrictively permit a transaction using the electronic ticket if the authorized user uses the electronic ticket within the upper limit amount of use, and a payment processing unit configured to perform a payment process so that a difference amount between the upper limit amount of use of the electronic ticket to be used in the transaction and an actually used amount of money in the transaction is returned to the payer of the electronic ticket.
