

ABSTRACT (FIG. 14)

"ROPE CLEANING DEVICE"

According to one embodiment, a rope cleaning
device (21) comprises a housing (22) comprises a rope
5 cleaning chamber (66) into which a plurality of wire
ropes (8) arranged at intervals are inserted, and a
cleaning element (23) which is provided in the rope
cleaning chamber (66) of the housing (22). The
cleaning element (23) cleans the wire ropes (8) by
10 slidably making contact with all the wire ropes (8)
passing through the rope cleaning chamber (66).
