(54) Title: COMPOSITIONS CONTAINING AN ANTIFUNGAL AND A PHOSPHOLIPID

(57) Abstract

The invention relates to compositions such as body and hair cleansing products, in particular shampoos, comprising one or more antifungals inhibiting fungal ergosterol biosynthesis as a first active ingredient, a synthetic, amphoteric phospholipid acting both as a second active ingredient and as a surface active agent, and art-known body or hair cleansing product ingredients as a carrier.
