

Delivery state

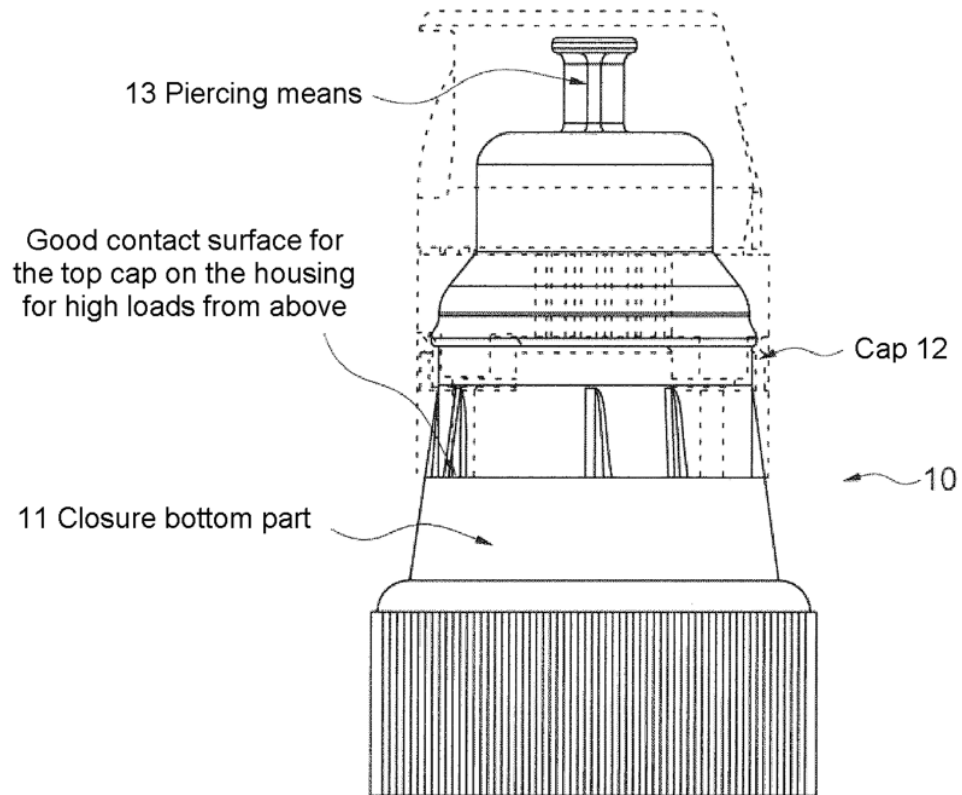

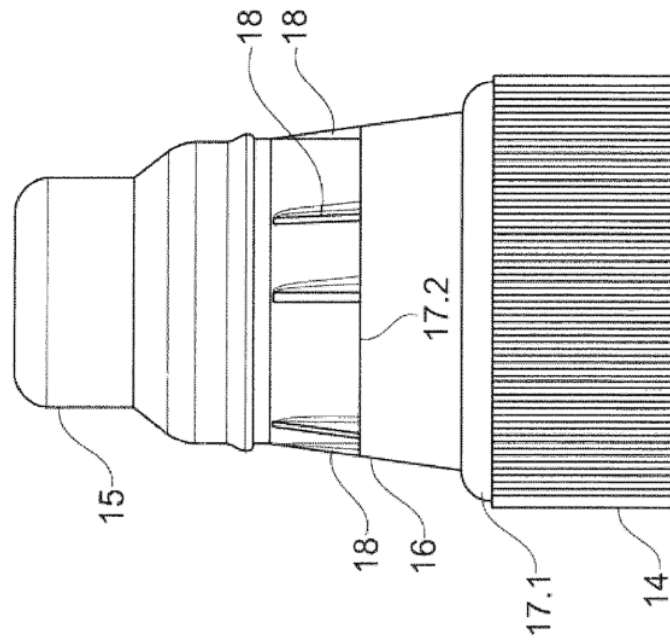

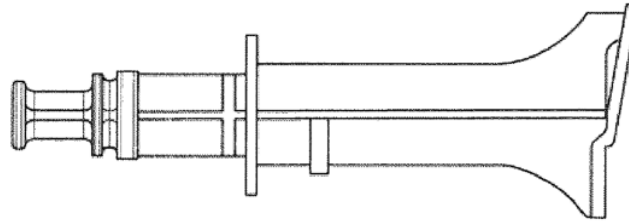

Fig. 1

Individual parts

Closure bottom part 11

Piercing means 13

Cap 12

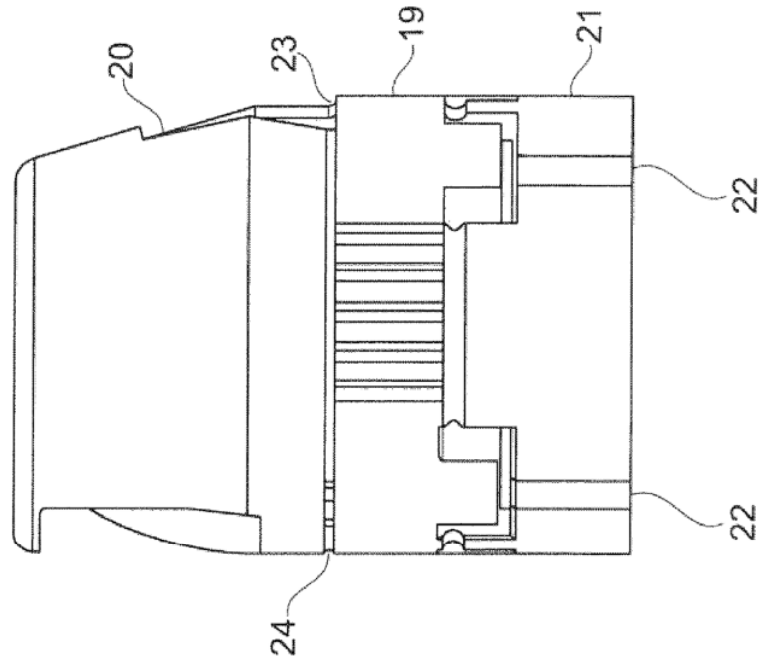

Fig. 2

Release safety ring

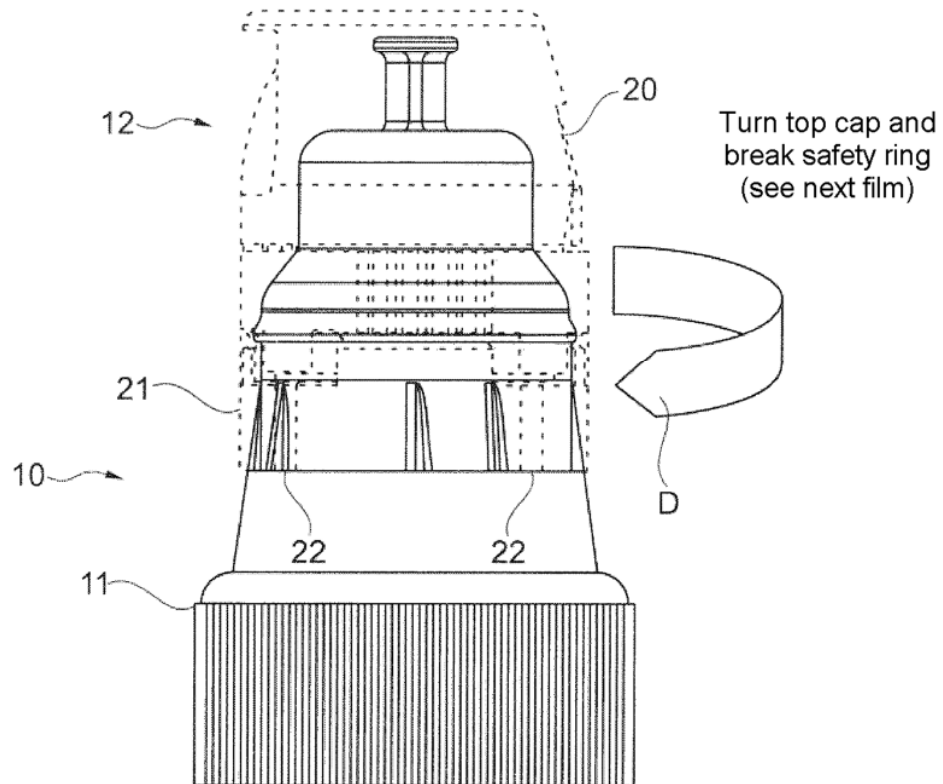

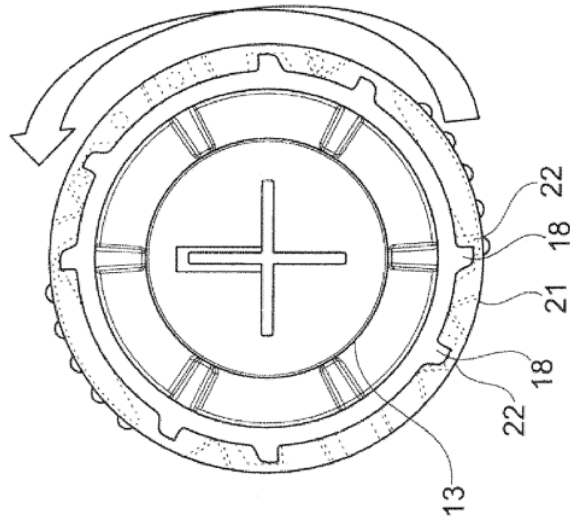

Fig. 3

Safety ring function

1. Cap is turned
2. Ribs on closure part press the ring radially outwards
3. The ring breaks and is spread, since the ribs are conical in shape - the attachment to the cap serves as a hinge

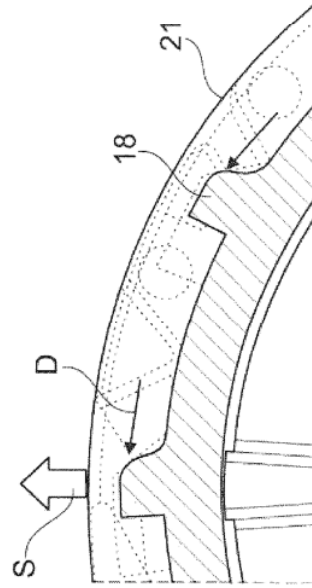

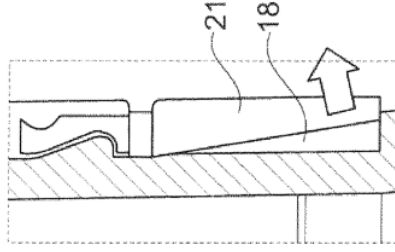

Fig. 4

Activation of the system

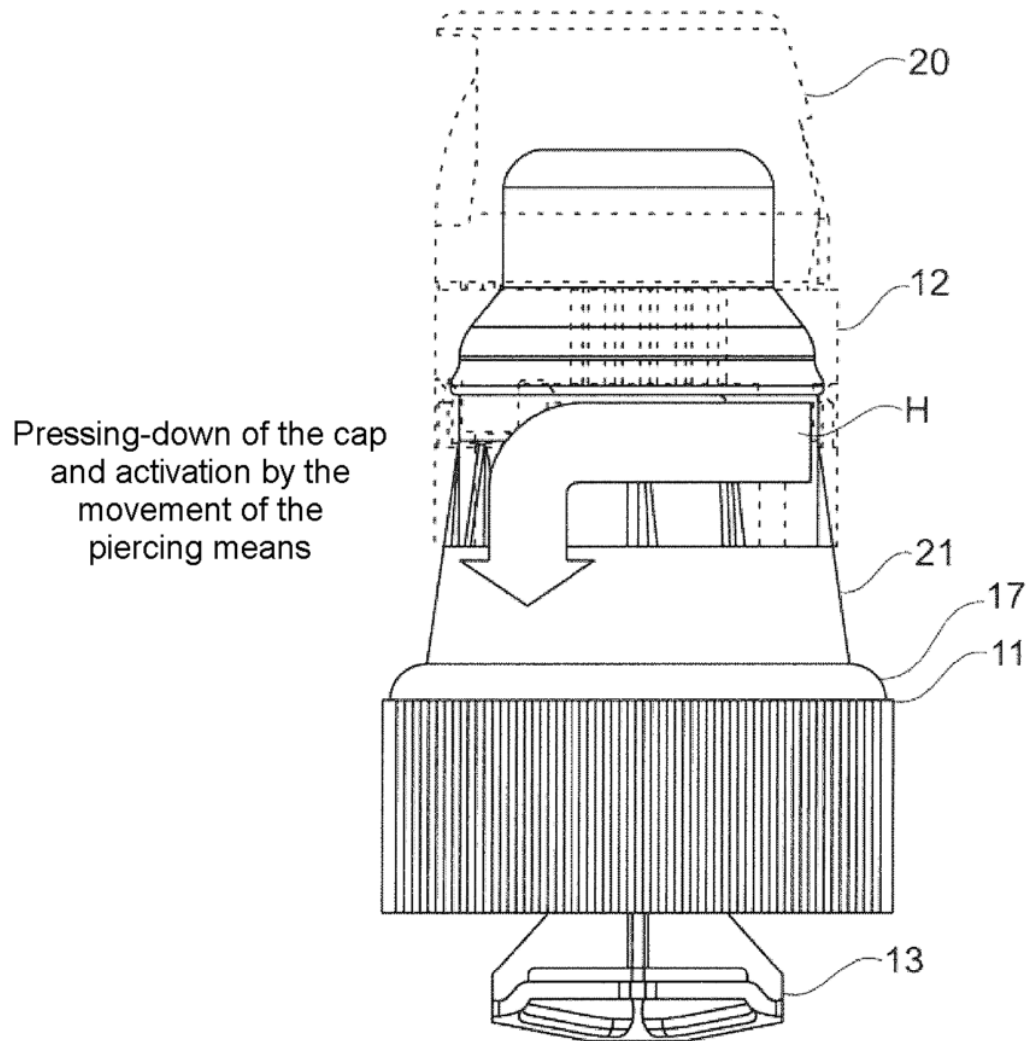

Fig. 5

Opened and ready to drink

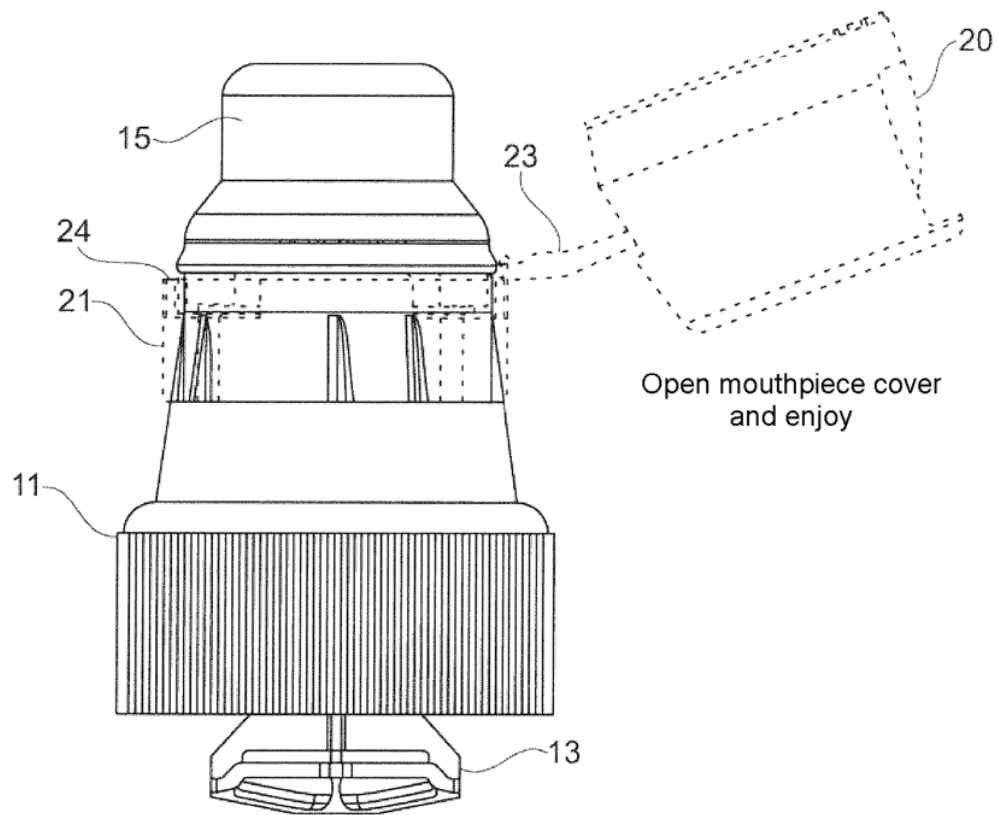

Fig. 6

Vicap activated and closed

Shut mouthpiece cover
to tightly seal the closure
again
