(54) Title: NOVEL POLYMER COMPOSITIONS AND METHODS OF MAKING AND USING SAME

(57) Abstract: A polymer reactor-blend comprising at least a first component having a polydispersity index of greater than about 20 and is present in an amount of from about 1 wt.% to about 99 wt.% based on the total weight of the polymer and a second component having a polydispersity index of less than about 20 and is present in an amount of from about 1 wt.% to about 99 wt.% based on the total weight of the polymer wherein a molecular weight distribution of the second component lies within a molecular weight distribution of the first component.
