(54) **Title:** METHODS AND SYSTEMS FOR COLLABORATIVE REMOTE APPLICATION SHARING AND CONFERENCING**FIG. 5A**

(57) **Abstract:** Systems and method for providing a collaborative conferencing capability to an application remotely-accessed by client computing devices. A client media sharing application is provided in a client tier, and the client media sharing application allows at least one of the client computing devices to share media with the client computing devices. A conferencing manager application that receives the shared media is provided to the server tier. The conferencing manager application makes the shared media available to the client computing devices.
