

ABSTRACT

The present invention provides a protective film-forming composite sheet including: a support sheet; a protective film-forming film provided on one surface of the support sheet; and a coating layer provided on a surface of the support sheet on a side
5 opposite to a side where the protective film-forming film is provided, in which a surface roughness R_a of a surface of the coating layer on a side opposite to a side where the coating layer is in contact with the support sheet is smaller than that of the surface of the support sheet on a side where the coating layer is provided.
