(54) Title: TISSUE WITH STRIKETHROUGH RESISTANCE

(57) Abstract

A toilet tissue product (20) may include a first cellulosic ply (22) and a second cellulosic ply (26). Desirably, the first cellulosic ply further includes a single layer (24) and the second cellulosic ply further includes a single layer (28). At least one ply may have a region (30) that prevents fluid from striking through the tissue product.
