

SWITCH ASSEMBLY, SYSTEM AND METHOD**ABSTRACT**

Disclosed is a switch assembly, an interface, a switch sub-assembly, a method of forming a switch assembly and a method for replacing an operational part with an operational part of a different type. The switch assembly comprises a functional part; an operational part for actuation by a user and for controlling the functional part; and an interface for interfacing the functional part and the operational part; wherein the operational part is not fixed to the interface or to the functional part.
