

ABSORBENT ARTICLE**ABSTRACT**

An absorbent article includes an absorbent core (1),
a liquid impervious backsheet (4), a liquid pervious
5 topsheet (5), a functional layer (6), an adhesive layer
(8) and a releasable film (91). The functional layer (6)
includes a plurality of functional particles (62) that
are made from a material selected from sodium carbonate,
argireline, mineral rock crystal, porphyritic andesite,
10 borneol, mint essential oil, eucalyptus essential oil,
jasmine essential oil, far-infrared radiation particles
and combinations thereof.
