

FILTRATION MEMBRANE TREATMENT DEVICE, MEMBRANE FILTRATION
DEVICE, AND FILTRATION MEMBRANE TREATMENT METHOD

ABSTRACT

5 A filtration membrane treatment device which
performs ozone treatment on a filtration membrane (1), the
filtration membrane treatment device including: a first
supply portion (3) which supplies an ozone-containing fluid
to the filtration membrane (1); a measurement portion (8)
10 which measures a measurement value (H) based on a pressure to
the filtration membrane (1); and a control portion (11) which
adjusts, on the basis of a change in the measurement value
(H) measured by the measurement portion (8), a supply amount
of the ozone-containing fluid to be supplied by the first
15 supply portion (3).
