(54) Title: METHOD AND APPARATUS FOR DETERMINING BROADCAST MESSAGES IN WIRELESS SIGNALS

FIG. 4

(57) Abstract: Methods and apparatus for processing and generating broadcast messages determined by a subband and OFDM symbols of frames in which signals are received. Overhead messages indicating resources used by broadcast messages in a wireless communication system are generated. Signals are received over a wireless system and broadcast messages are determined from the signals as designated by a subband and OFDM symbols of frames of an ultraframe in which signals are received.
