(54) Title: A VESSEL FOR MIXING A CELL LYSATE

(57) Abstract

The invention relates to a vessel for mixing a cell lysate. The invention also relates to a method of using the vessel to mix a cell lysate in order to obtain high-purity products such as nucleic acids or proteins for use in a variety of applications. The invention also relates to a method for monitoring the degree of cell lysis in a cell suspension by measuring the viscosity of the cell suspension.
