ning of each regular issue of the PCT Gazette.

(54) Title: APPARATUS AND METHOD OF SEPARATING MEDIUM-SIZED MATERIALS FROM GARBAGE FOR COLLEC-
TION

(57) Abstract: An apparatus and method of separating medium-sized materials such as trash, bottles, floated articles, and submerged articles from garbage for collection by means of wind and water is disclosed. Moreover, an initial cleaning of garbage and a dilution of toxic materials contained therein are performed while disposing garbage, thereby significantly reducing a possibility of contracting diseases by or poisoning cleaning employees.
