amendments (Rule 48.2(h))

(54) **Title:** ORDER LIFE-CYCLE VISUALIZATION

FIG. 1

(57) **Abstract:** Systems and methods are presented that provide a visualization for displaying an order life-cycle for one or more orders. The visualization includes one or more order objects representing orders for financial instruments (e.g., stocks, bonds, securities) and connectivity between the one or more order objects to help show an order history for the order objects. The visualization shows how orders develop over time by allowing a more specific order life-cycle to be emphasized in the visualization. The systems and methods described below allow for direct visibility for the development of orders over time using a unique and interactive visualization.
