

[図1]

[図2]

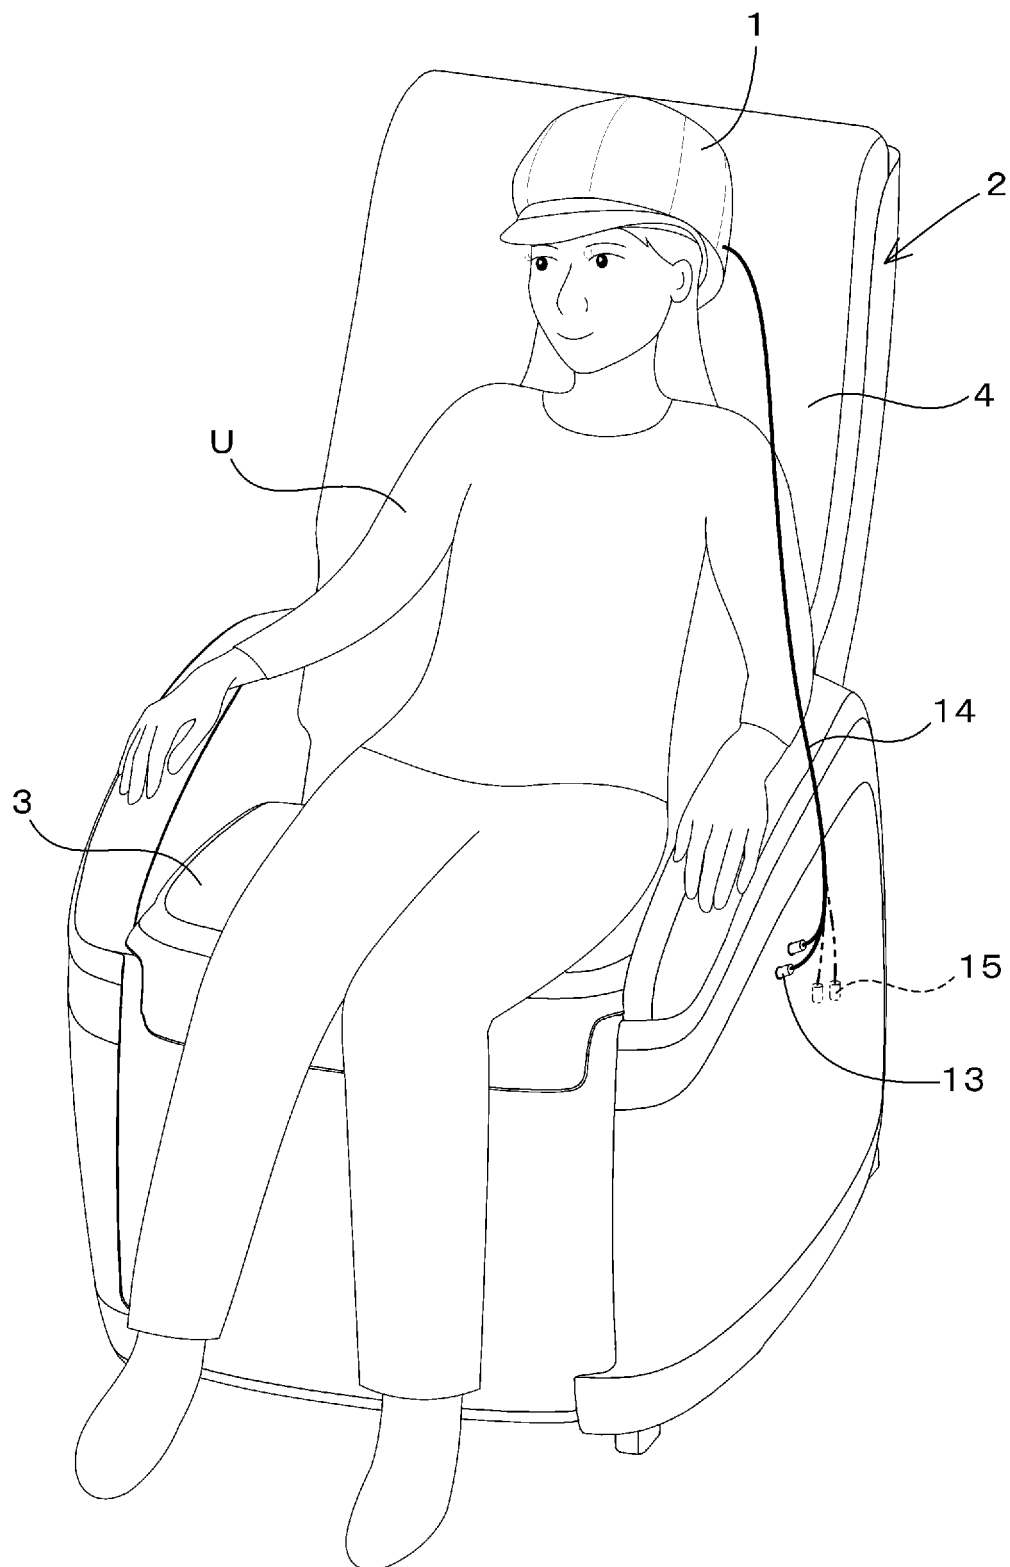

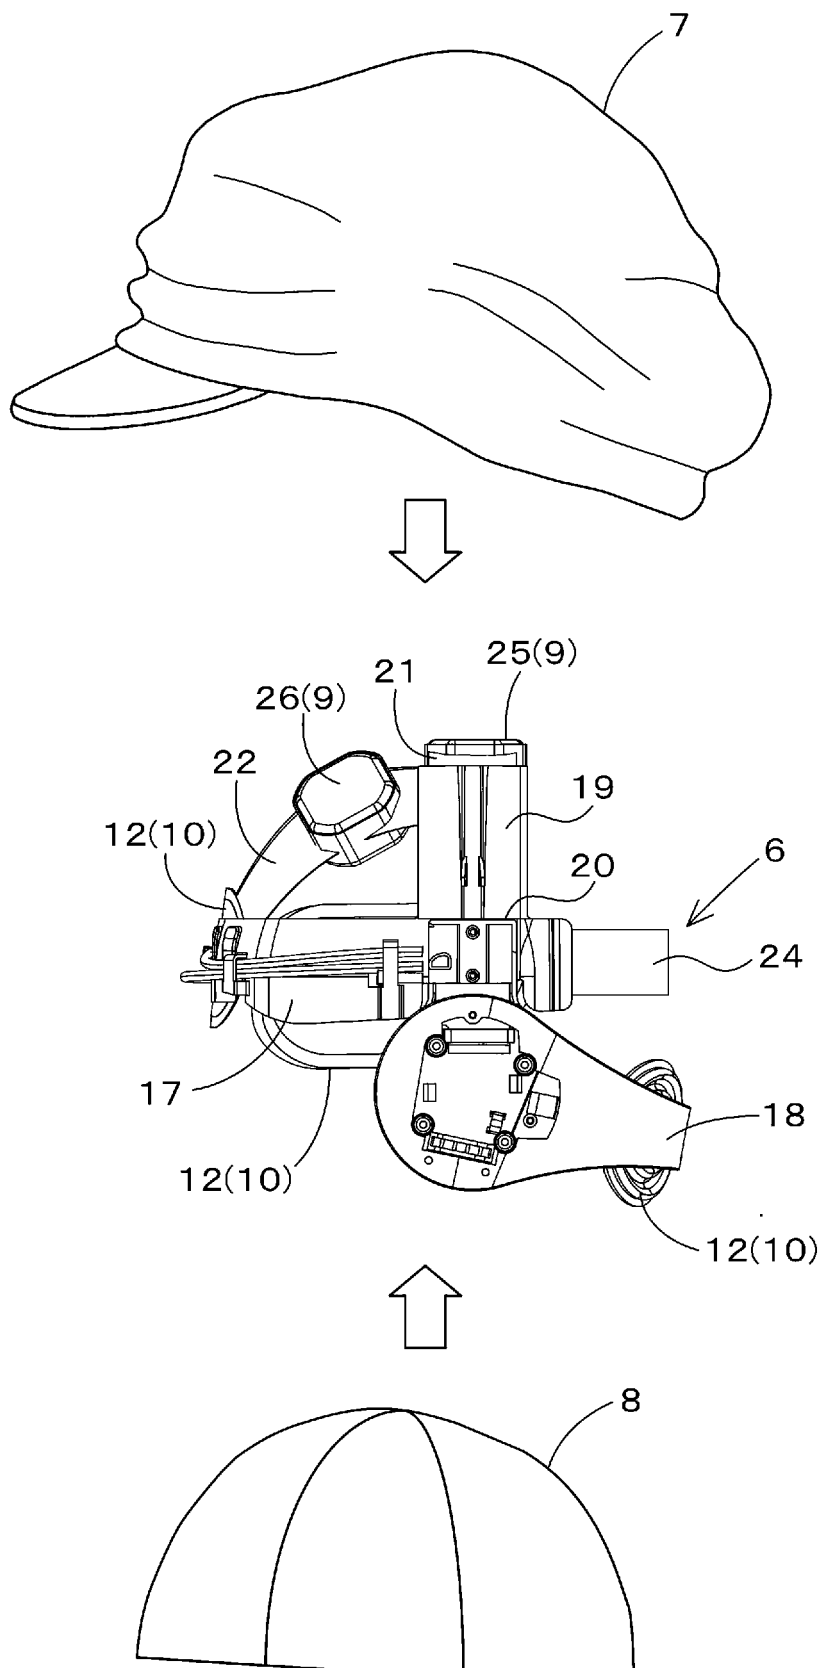

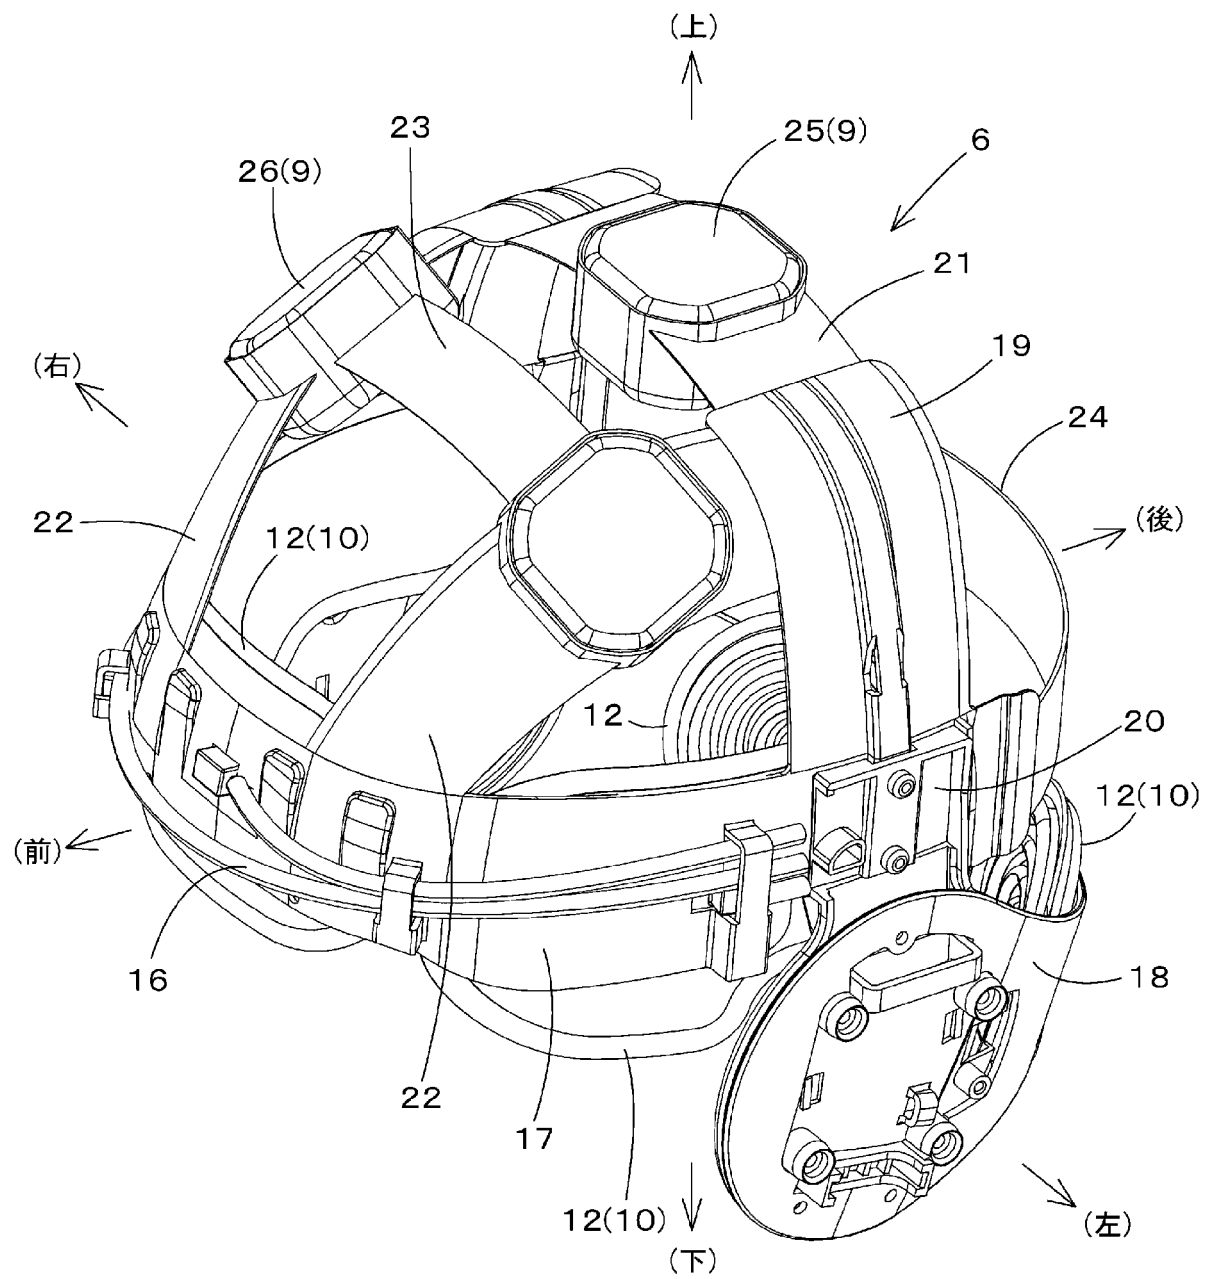

Figure 1 is a perspective view of a person wearing a head-mounted display (HMD) system. The system includes a headgear (1) with a display unit (2) and a sensor unit (3). The display unit (2) is mounted on the front of the headgear and includes a display (21) and a sensor (22). The sensor unit (3) is mounted on the side of the headgear and includes a sensor (31) and a display (32). The person is labeled 'U'.
