(54) Title: SYSTEM FOR THE CONVERSION OF WATER INTO NON-OXIDIZING GASES AND ELECTRONIC DEVICES CONTAINING SAID SYSTEMS

(57) Abstract: Systems capable of converting water into reducing gases are described. These systems can be employed in moisture sensitive electronic and microelectronic devices, whose functioning is not influenced by the contact with reducing gases; in particular, the systems according to the invention can be used in the screens, known as OLEDs, containing electroluminescent organic materials.
