(54) Title: OIL–FREE PHARMACEUTICAL COMPOSITIONS CONTAINING CYCLOSPORIN A

(57) Abstract

The present invention provides a hard gelatine capsule containing a pharmaceutical composition comprising cyclosporin A in a mixture with a surfactant of HLB value at least 10, substantially free of any oil and when a hydrophilic phase is present, the hydrophilic phase being a polyethylene glycol and/or a lower alkanol provided that any lower alkanol present is present in less than 12 % of the total weight of the composition absent the hard gelatine capsule.
