(54) **Title**: METHOD AND SYSTEM FOR DISPLAYING INTERLINING TRAVEL RECOMMENDATIONS

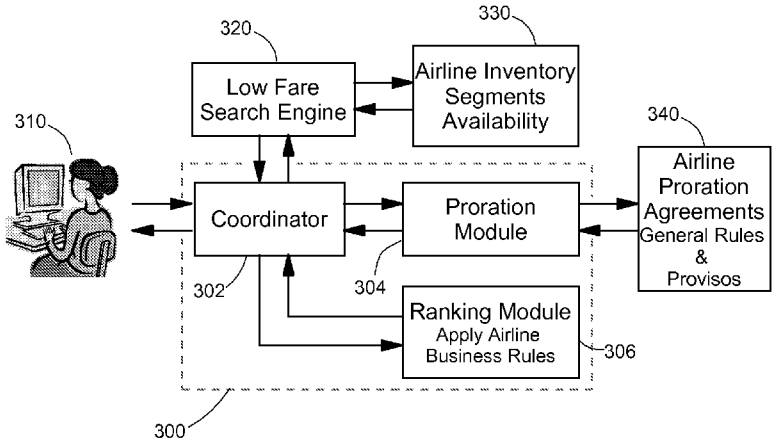

Figure 3

(57) **Abstract**: A method for sorting and displaying airline travel recommendations adapted to the display of interlining travel solutions is described. The method is characterized in that it first comprises computing expected airline revenue for each segment operated by a travel carrier involved in the travel recommendation. Then, a weight based on expected airline revenue is determined. This allows sorting the travel recommendations by decreasing order of weights. The interlining travel solutions are displayed accordingly.
