(54) **Title:** DOSING AND DRIVE MECHANISM FOR DRUG DELIVERY DEVICE

(57) **Abstract:** The present invention relates to drive mechanisms suitable for use in drug delivery devices (1), in particular pen-type injectors, wherein a number of pre-set doses of medicinal product can be administered. In particular, the present invention relates to such drug delivery devices where a user may activate the drug delivery device. The present invention relates to drive mechanisms suitable for use in drug delivery devices, in particular pen- type injectors, wherein a number of pre-set doses of medicinal product can be administered. In particular, the present invention relates to such drug delivery devices where a user may activate the drug delivery device.
