(54) Title: EUV PELLICLE WITH INCREASED EUV LIGHT TRANSMITTANCE

(57) Abstract: According to one exemplary embodiment, an extreme ultraviolet (EUV) pellicle (106) for protecting a lithographic mask (104) includes an aerogel film (122). The pellicle further includes a frame (124) for mounting the aerogel film over the lithographic mask. The aerogel film causes the pellicle to have increased EUV light transmittance.
