STABLE OXALIPLATIN-ENCAPSULATING LIPOSOME AQUEOUS DISPERSION AND METHOD FOR STABILIZING SAME

ABSTRACT

An object of the present invention is to provide an oxaliplatin-encapsulating liposome aqueous dispersion that has excellent long-term storage stability. The present invention provides an aqueous dispersion of liposomes encapsulating oxaliplatin, the oxaliplatin-encapsulating liposome aqueous dispersion containing 2-morpholinoethanesulfonic acid in an external aqueous phase.
