

ABSTRACT

A construction of an outdoor unit free from a sealing member 11 prevents rainwater from invading power-supply-board 10 and terminal-block 12 which connects inside electric wire with outside electric wire—board 10 and block 12 are housed by the outdoor unit. Rib 13 for blocking rainwater is provided over an entire length of the upper end of side plate 2, an element of a housing of the outdoor unit, rib 13 is formed unitarily with side plate 2, or rib 13 is provided over an entire circumference of the lower end of top plate 5, in this case, rib 13 is formed unitarily with top plate 5.
