(54) Title: HIGH PROTEIN, LOW VISCOSITY LIQUID NUTRITIONAL PRODUCT WITH HMB

(57) Abstract: Nutritional products with improved organoleptic properties are provided herein. The general inventive concepts provide liquid nutritional products with improved viscosities while providing relatively higher levels of protein. In certain exemplary embodiments, the liquid nutritional products further provide beta-hydroxy-beta-methylbutyrate in addition to relatively higher levels of protein while maintaining a pleasant mouthfeel when consumed.
