

Abbreviations: A = adenosine, C = cytidine, G = guanosine, U = uridine; RNA = ribonucleic acid, ORF = open reading frame, UTR = untranslated region

FIG. 1

Abbreviations: A = adenosine, C = cytidine, G = guanosine, U = uridine;
ORF = open reading frame, UTR = untranslated region,
6X–His = codons for 6 histidine amino acids,
Xpress = condons for Xpress epitope tag

FIG.2

Abbreviations: A = adenosine, G = guanosine, U = uridine;
mRNA = messenger ribonucleic acid,
ORF = open reading frame, UTR = untranslated region

FIG.3
