(54) Title: DISTRIBUTED CONCENTRATED CHEMICAL DISPENSING SYSTEM

(57) Abstract

A distributed concentrated chemical dispensing system (300) and method include a central station (302), one or more permanently mounted satellite stations (304), and one or more portable satellite stations (306). Local concentrated chemicals can be distributed from the central station (302) without being diluted to the satellite stations (304, 306) for final dilution. An information storage device (318) is provided for tracking and keeping records of the utilization of the concentrated chemicals.
