

ABSTRACT OF THE DISCLOSURE

MOUNTING SYSTEM FOR A CONNECTOR ASSEMBLY TO A SUBSTRATE

5 A system is provided for mounting a connector assembly (28) to a substrate (34). The substrate includes at least one pre-placement hole (76) and at least one positioning hole (78). A connector housing (72) has a pre-placement peg (82) sized for insertion into the pre-placement hole (76) in the substrate with substantially zero insertion forces to generally place the housing on the substrate. The housing has a positioning peg (84) sized for insertion into the positioning hole (78) in the substrate by a press-fit to precisely fix the housing on the substrate.
