(54) Title: ARTIFICIAL ROCKWORK SYSTEMS AND METHODS

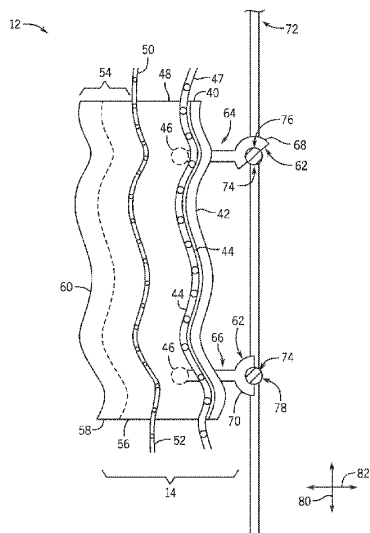

FIG. 2

(57) Abstract: In an embodiment an artificial rockwork system is provided that includes a support structure, and a plurality of artificial rockwork panels (14). The artificial rockwork system includes a plurality of artificial rockwork panels. An individual artificial rockwork panel of the plurality of artificial rockwork panels includes a first layer (40), one or more reinforcement structures (46), a second layer (48), a mesh layer (50), and an exterior layer (54). The one or more reinforcement structures include one or more couplings (62) are positioned on a first end of the one or more reinforcement. The second layer is disposed over at least a portion of the second surface of the first layer to secure the one or more reinforcement structures within the individual artificial rockwork panel.
