(54) Title: PULSED PRESSURIZED POWDER FEED SYSTEM AND METHOD FOR UNIFORM PARTICULATE MATERIAL DELIVERY (57) Abstract A powder feed system for delivering a quantity of particulate material to a die cavity (5) of a powder press is provided. The powder feed delivery system includes a receptacle (13) for receiving and delivering particulate material to the cavity (5). The receptacle (13) has an ingress (15) through which particulate material is received under pressure and an egress (17) for registering with the interior of the cavity (5) and through which particulate material is delivered under pressure from a feed conduit (21) to the cavity (5).
