

WATER-SOLUBLE UNIT AMOUNT METALWORKING FLUID COMPOSITION AND
METHOD FOR PRODUCING DILUTED FLUID THEREOF

ABSTRACT

5

An object of the present invention is to provide a water-soluble unit amount metalworking fluid composition that can be put into practical use in the field of industrial chemicals, in particular in metalworking. A water-soluble unit amount metalworking fluid composition comprising a water-soluble metalworking fluid composition and/or at least one water-soluble metalworking fluid component packed in a water-soluble packaging container formed from a water-soluble film material.
