(54) Title: CAR ENTERTAINMENT SYSTEM AND ASSOCIATED PRINTER

(57) Abstract: An onboard information retrieval system includes a user terminal operable by a user to access a source of the information. A communications unit is arranged in the conveyance to download data from the source of the information. A processor, in communication with said user terminal, processes the data to provide formatted data suitable for printing. An onboard printing unit is associated with the user terminal for printing the formatted data to provide the information.
